Data processing agreement (DPA) – template

VERSION	ISSUED BY	CONTACT
2026-10-16	Brickstream AB, 556792-7644	info@brickstream.se

Brickstream AB, reg. no. 556792-7644, Linköping, Sweden · Version 2026-10-16 · Contact: info@brickstream.se (subject "Security")

> A template under Article 28(3) GDPR. The same content as annex 1 of the terms for assignments, which applies without a signature when you accept a quote. This template is used when your organisation wants a stand-alone, signed agreement. You may also use your own template.

Parties

Controller: [Organisation name], reg. no. [ ], hereinafter "the Customer".

Processor: Brickstream AB, reg. no. 556792-7644, Linköping, Sweden, e-mail info@brickstream.se, hereinafter "Brickstream".

1 Scope

This agreement applies when material the Customer sends to Brickstream in an order or a free sample contains personal data. It supplements the terms for assignments and the quote the Customer has accepted ("the Main Agreement"). In case of conflict this agreement prevails on matters of personal data.

2 Instructions

Brickstream processes the personal data only on the Customer's documented instructions: the Main Agreement, the order and Annex 1. If Brickstream considers that an instruction infringes data protection rules, the Customer is informed without delay.

3 Confidentiality

Everyone at Brickstream with access to the data, including final reviewers, is bound by confidentiality or a non-disclosure agreement.

4 Security

Brickstream implements the technical and organisational measures described in the Security description (Annex 2) and required by Article 32.

5 Sub-processors

The Customer gives a general prior authorisation for the sub-processors in Annex 3. Brickstream informs the Customer at least 30 days before a change or addition, and the Customer may object on reasonable grounds. Brickstream imposes equivalent obligations on sub-processors and is responsible for their processing as for its own.

6 Transfers to third countries

Transfers outside the EU/EEA take place only with safeguards under Chapter V, for example the European Commission's standard contractual clauses or the EU–US Data Privacy Framework. Today AI processing takes place in the USA (Annex 3).

7 Assistance

Brickstream assists the Customer in responding to data subjects' requests (Articles 12–22) and with security, impact assessments and prior consultation (Articles 32–36), taking into account the nature of the processing.

8 Personal data breaches

Brickstream notifies the Customer without undue delay and at the latest 24 hours after discovering a breach affecting the Customer's data, with the information required by Article 33(3).

9 Audits

Brickstream makes available the information needed to demonstrate compliance and allows audits after reasonable notice, at most once a year except after a breach.

10 Erasure

Brickstream erases the material and the delivery 30 days after delivery and at once if the order is cancelled or declined; a free sample and its documents at the latest 30 days after the sample has been delivered or declined. Only data that must be kept by law (accounting records) remains.

11 Liability and term

Liability under the Main Agreement and Article 82. The agreement applies for as long as Brickstream processes personal data on the Customer's behalf.

Annex 1 – The processing

Purpose	To produce the ordered delivery or the free sample
Data subjects	People mentioned in the Customer's material, for example contact persons and consultants in CVs
Data	Names, roles and contact details, and other data the Customer chooses not to mask. No sensitive personal data and no personal identity numbers.
Operations	Storage, AI processing, review, delivery and erasure
Duration	From upload to erasure (30 days after delivery; free samples at the latest 30 days after delivery or decline)
Location	Storage in Stockholm; AI processing as in Annex 3

Annex 2 – Security measures

The Security description, version 2026-10-16 (brickstream.se/sakerhetspaket).

Annex 3 – Sub-processors

The sub-processor list, version 2026-10-16 (brickstream.se/sakerhetspaket). For assignments and free samples: Supabase (storage, Stockholm), Vercel (web server, Stockholm), Anthropic PBC (AI processing, USA, standard contractual clauses) and final reviewers (Sweden, bound by reviewer agreements with the same obligations).
